Guadalajara, Jalisco, México | 3314179350 | juliocardenas85@gmail.com

SUMMARY

I'm a multidisciplinary professional with a Master's in Information Technology and a Bachelor's in Administration, both by Universidad de Guadalajara. Passionate about software development, with hands-on full stack experience in both front-end (UI development) and back-end, relational databases, and web/mobile applications. Currently focused on expanding my skills and impact in the IT industry.

PROFESSIONAL EXPERIENCE

Experience in Software Developing

Freelance Software Developer

Guadalajara

September 2025 - Present

Developing, modifying, or bug fixing in various projects for personal clients using technologies from my stack, such as React, VueJS, Angular, .Net, [Node.js](#), Swift and Android.

Frontend Engineer

BEATT | Guadalajara

October 2023 - August 2025

I was responsible for the design and development of the company's web application using React framework. The application is a system for controlling and monitoring ticket machines for US stakeholders in transportation services such as trains, subways and buses, providing a responsive, stable and reliable interface, improving client-side performance with an efficient response time less than 3 second per query.

Additionally, I've worked in the development and troubleshooting of their iOS app. My work contributed to improving user engagement and the overall performance of their product, reducing 90% of bugs and assuring the correct performance on different iPhone devices. The application allows users to purchase tickets, check routes and train schedules for a subway service.

Jr. Full Stack Software Developer

FlamingSoft | Guadalajara

September 2022 – July 2023

I developed web applications for Canadian clients as part of a diverse team of multinational developers. A key achievement during my tenure was my contribution to a Human Resources project that streamlined staff management, enhanced reporting capabilities and recording evidence of incidents with text and images.

Experience in Business Management
